REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Present invention of claims 1-4 are distinguishable from those of the references cited in the Information Disclosure Statements filed on June 14, 2004 for the following reasons:

JP 10-010742 (Fukumuro et al) teaches (in [0171] of the Japanese document) the thickness of its photosensitive layer to be 2.0 μm (which is equivalent to 0.002 mm) whereas the *present invention of claim 1 requires the thickness of the photosensitive layer to be 0.45-0.8 mm*; JP 08-220766 (Hattori et al) teaches (in [0081]) the thickness of its photosensitive layer to be 1.0-2.5 μm (equivalent to 0.001-0.0025 mm); JP 09-034110 (Nakayama) teaches (in [0110]) the thickness of its photosensitive layer to be 2.0 μm (which is equivalent to 0.002 mm); JP 09-288974 (Tanaka et al) teaches (in [0043]) the thickness of its photosensitive layer to be 10-100 μm (equivalent to 0.01-0.1 mm); JP 09-025360 (Sato et al) is cited for the teaching of p-toluenesulfonamide, however, the present claim 1 does not cite $-\text{SO}_2\text{NHR}^2$ group (i.e., sulfonamide group) as one of X any longer.

Therefore, for the reasons stated above, present invention of claims 1-4 are allowed over those references cited in the IDS filed on June 14, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
